

EX NO: 4	File Operations Using Shell Programming
Date: 07-07-26	

AIM:

To study the file operation using shell programming.

ALGORITHM:**MENU DRIVEN PROGRAM FOR FILE OPERATIONS:**

1. START
2. Using while loop, perform
3. Read the choice from
4. Use Switch case, to perform file Operation
 - 4.1 if choice is 1 (cat)
 - Read file name
 - cat \$file name
 - 4.2 if choice is 2 (cp)
 - Read source
 - Read destination
 - cp \$ source & destination
 - 4.3 if choice is 3 (mv)
 - Read Source
 - Read destination
 - mv \$ source & destination
 - 4.4 if choice is 4 (wc)
 - Read file name
 - wc \$ file name
 - 4.5 if choice is 5 (grep)
 - Read file name
 - Read word
 - Read option
 - grep -\$opt \$word \$file
 - 4.6 if choice is 6 (head)
 - Read file name

```
    Read no.of lines
    head -$no.of Lines $file
4.7 if choice is (tail)
    Read file name
    Read no.of lines.
    tail $no.of Lines $file
4.8 if choice is 8 (sort)
    Read file name
    Read option
    Sort $option $file
```

5. STOP

PROGRAM:

MENU DRIVEN PROGRAM FOR FILE OPERATIONS:

INPUT:

```
echo Mitun 25IT371
echo "***FILE OPERATIONS***"
echo 1. cat command
echo 2. cp command
echo 3. mv command
echo 4. wc command
echo 5. grep command
echo 6. head command
echo 7. tail command
echo 8. sort command
echo Enter the choice
read c
```

```
case $c in
```

```
1) echo Enter the file
```

```
    read f
```

```
    cat $f
```

```
;;
```

```
2) echo Enter the source file name
```

```
    read s
```

```
    echo Enter the destination file
```

```
    read d
```

```
    cp $s $d
```

```
;;
```

```
3) echo Enter the source file name
```

```
    read s
```

```
    echo Enter the destination file
```

```
    read d
```

```
    mv $s $d
```

```
;;
```

```
4) echo Enter the file
```

```
    read f
```

```
    wc $f
```

```
;;
```

```
5) echo Enter the file name
```

```
    read file
```

```
    echo Enter the option v,n,c
```

```
    read option
```

```
echo Enter the word
read word
grep -${option} $word $file
;;
```

6) echo Enter the source file name

```
read s
echo Enter the no.of line
read d
head -${d} $s
;;
```

7) echo Enter the source file name

```
read s
echo Enter the no.of line
read d
tail -${d} $s
;;
```

8) echo Enter the source file name

```
read s
echo Enter the option
read d
sort -${d} $s
;;
```

```
esac
```

OUTPUT:

1.cat

```
Mitun 25IT371
***FILE OPERATIONS***
1. cat command
2. cp command
3. mv command
4. wc command
5. grep command
6. head command
7. tail command
8. sort command
Enter the choice
1
Enter the file
Mitun
My name is Mitun
I love to watch movies
I like to play games
I study in SKCET
```

2.cp

```
Mitun 25IT371
***FILE OPERATIONS***
1. cat command
2. cp command
3. mv command
4. wc command
5. grep command
6. head command
7. tail command
8. sort command
Enter the choice
2
Enter the source file name
Mitun
Enter the destination file
sport
```

```
main.bash  Mitun  sport  transfer
1 | My name is Mitun
2 | I love to watch movies
3 | I like to play games
4 | I study in SKCET
```

3.mv

```
Mitun 25IT371
***FILE OPERATIONS***
1. cat command
2. cp command
3. mv command
4. wc command
5. grep command
6. head command
7. tail command
8. sort command
Enter the choice
3
Enter the source file name
Mitun
Enter the destination file
transfer
```

```
main.bash  Mitun  sport  transfer
1 | My name is Mitun
2 | I love to watch movies
3 | I like to play games
4 | I study in SKCET
```

4.wc

```
Mitun 25IT371
***FILE OPERATIONS***
1. cat command
2. cp command
3. mv command
4. wc command
5. grep command
6. head command
7. tail command
8. sort command
Enter the choice
4
Enter the file
Mitun
  3 18 77 Mitun
```

5.grep

```
Mitun 25IT371
***FILE OPERATIONS***
1. cat command
2. cp command
3. mv command
4. wc command
5. grep command
6. head command
7. tail command
8. sort command
Enter the choice
5
Enter the file name
Mitun
Enter the option v,n,c
n
Enter the word
to
2:I love to watch movies
3:I like to play games
```

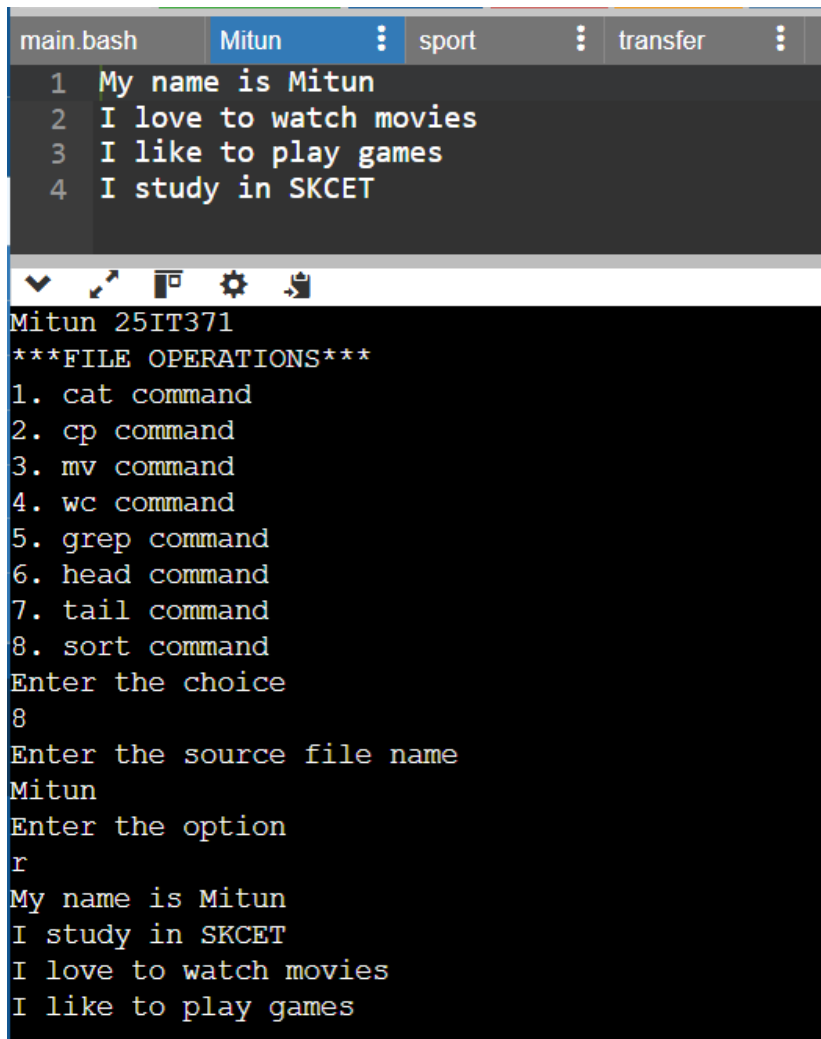

6.head

```
Mitun 25IT371
***FILE OPERATIONS***
1. cat command
2. cp command
3. mv command
4. wc command
5. grep command
6. head command
7. tail command
8. sort command
Enter the choice
6
Enter the source file name
Mitun
Enter the no.of line
2
My name is Mitun
I love to watch movies
```

7.tail

```
Mitun 25IT371
***FILE OPERATIONS***
1. cat command
2. cp command
3. mv command
4. wc command
5. grep command
6. head command
7. tail command
8. sort command
Enter the choice
7
Enter the source file name
Mitun
Enter the no.of line
2
I like to play games
I study in SKCET
```

8.sort

```
main.bash Mitun sport transfer
1 My name is Mitun
2 I love to watch movies
3 I like to play games
4 I study in SKCET

Mitun 25IT371
***FILE OPERATIONS***
1. cat command
2. cp command
3. mv command
4. wc command
5. grep command
6. head command
7. tail command
8. sort command
Enter the choice
8
Enter the source file name
Mitun
Enter the option
r
My name is Mitun
I study in SKCET
I love to watch movies
I like to play games
```

RESULT:

Thus the use of menu driven file operations using shell programming were constructed and demonstrated successfully.
